PROFESSIONAL SUMMARY

Senior Android Developer and mobile app developer with extensive experience building and shipping secure, production mobile apps used by the public, governments and businesses, including a public-safety app with 500K+ downloads. Strong in Kotlin, Java, Jetpack Compose, Coroutines and MVVM / Clean Architecture, with Flutter apps released to both Google Play and the App Store. Specialist in biometrics (face recognition, fingerprint), NFC, kiosk / Device Owner apps and in-app payments, with working knowledge of REST APIs and Node.js backends.

TECHNICAL SKILLS

- **Android:** Kotlin, Java, Jetpack Compose, Material Design, Android Jetpack (ViewModel, LiveData, Navigation, WorkManager), Kotlin Coroutines, Flow / StateFlow, Hilt / Dagger (dependency injection), MVVM, Clean Architecture, Room, Retrofit, OkHttp, REST APIs, JSON, offline-first data sync, Android SDK, Android Studio, Gradle, Firebase
- **Cross-platform & iOS:** Flutter, Dart, iOS releases (App Store Connect), HealthKit, white-label builds
- **Hardware & security:** Face recognition (TensorFlow, ML Kit), fingerprint scanners, NFC, kiosk / Device Owner mode, JWT auth
- **Payments:** Google Pay, Apple Pay, StoreKit and Google Play Billing subscriptions, payment gateways
- **Testing & delivery:** Unit and UI testing (JUnit, Espresso, Mockito), code reviews, CI/CD pipelines, Git, Agile / Scrum, SDLC, performance optimisation, Firebase Crashlytics and Analytics, Google Play Console, App Store Connect, Firebase Cloud Messaging
- **Also worked with:** Node.js, NestJS, PostgreSQL, Next.js, Google Maps API

PROFESSIONAL EXPERIENCE

Software Engineer | TextBet, United Kingdom | Jul 2026 - Present

- Build and maintain the company's Flutter mobile app for iOS and Android, including secure WebView, Firebase push notifications and JWT authentication
- Handle app releases on Google Play and the App Store
- Work closely with the backend and web teams, contributing to Next.js portals and the APIs the app depends on

Senior Mobile Application Developer | Surfway, Denmark (remote, part-time) | Feb 2022 - Present

- Built and maintain Surfway's Flutter time-registration app, shipped as 3 white-label brands (Surfway, Sagro, Wellco) on Android and iOS, managing separate builds, branding and store releases for each
- Manage the iOS side end to end: builds, App Store Connect, review submissions and releases, alongside Google Play publishing
- Developed an end-to-end attendance solution with on-device facial recognition (Java, TensorFlow) and PIN login
- Built tablet kiosk apps for attendance using fingerprint scanners and NFC cards, including the Time Clock App

Freelance Mobile App Developer (Android & Flutter) | Self-employed, occasional projects, remote | Jan 2022 - Present

- My Fitness Compass for West Coast Supplements (USA): Flutter app live on iOS and Android with HealthKit, Apple Pay / Google Pay, StoreKit and Play Billing subscriptions, and a barcode food scanner
- PhoneLock: native Kotlin Device Owner app that remotely locks financed phones and survives factory reset, with a supporting API and dealer console
- Delivered apps for clients in the UK, USA, Denmark and Pakistan, including an EMV card reader app and a security-guard (SIA) booking app

Deputy Executive Officer (AI/ML) | Punjab Safe Cities Authority, Lahore, Pakistan | Apr 2024 - Jan 2025

- Led mobile delivery for iOS and Android, managed projects with stakeholders, and mentored junior developers through code reviews and training

Senior Mobile Application Developer | Punjab Safe Cities Authority, Lahore, Pakistan | May 2021 - Mar 2024

- Built secure public-safety apps for citizens and officials, including the Punjab Police Women Safety App (500K+ downloads, 1K+ reviews on Google Play) with live location, police chat and calls
- Delivered Zindagi (10K+ downloads, Android and iOS) and Lost & Found Persons (1K+ downloads, Android)

- Ran training sessions for officials on secure use of the apps, and owned Play Store and App Store releases

Mobile Application Developer | Punjab Safe Cities Authority, Lahore, Pakistan | May 2019 - May 2021

- Developed new Android apps in Kotlin and Java and enhanced existing ones within an Agile team, improving performance and stability using Firebase Crashlytics, and published them on Google Play

Co-Founder & CTO | SoftLeap, Lahore, Pakistan | Jan 2018 - May 2019

- Led the software development lifecycle from idea to deployment, and managed the team and client delivery

Earlier roles: Android Developer at SDSol Technologies (2017) and Holygon (2016-2017), building POS, booking and e-commerce apps.

PROJECTS (LIVE ON GOOGLE PLAY AND THE APP STORE)

- **Surfway Mobile / Sagro Time Mobile / Wellco Mobile:** Flutter, Android and iOS
- **Time Clock App, Surface, Sagro Face:** Android kiosk apps with face recognition, PIN and NFC
- **Punjab Police Women Safety App:** Android and iOS, 500K+ downloads
- **Zindagi:** Android and iOS, 10K+ downloads
- **Lost & Found Persons:** Android, 1K+ downloads
- **My Fitness Compass:** Flutter, Android and iOS

EDUCATION

MSc Advanced Computer Science | University of Hertfordshire, UK | 2025 - 2026 (in progress)

BS Information Technology | University of Education, Pakistan
